## INVITATION LETTER

### YOU ARE INVITED TO THE 2012 DEEPWATER OPERATIONS CONFERENCE & EXHIBITION, 10 YEARS STRONG!

On behalf of the Advisory Board, PennWell, the conference organizer, and the many exhibitors and sponsors, I want to invite you to the 10th annual Deepwater Operations Conference and Exhibition at the Moody Gardens Hotel & Convention Center in Galveston, Texas.

#### DEEPWATER OPERATIONS IS OUR BUSINESS AND THIS IS OUR CONFERENCE.

This year's conference theme is **A Decade of Lessons Learned, Preparing for New Challenges**. Deepwater is an exciting and vital part of the energy industry and our history is filled with challenges and achievements. To be successful in the future it is critical that our industry is able to continually improve and stay ahead of the increasing requirements of regulators and the expectations of society. Our conference objectives are to drive excellence across Deepwater Operations through collectively learning and sharing ideas and solutions. New challenges are ahead; we must learn from each other, prepare and be ready to deliver.

The Advisory Board members have worked hard to bring you a great program with many new presenters and a few returning favorites. The selected session topics include; New Deepwater start-ups and lessons from first year operations, Asset Management, Asset Integrity, and Operational Solutions. We will also hear from our regulators and experts in Emergency Response. Each of the presentations will be followed by lively Question and Answer sessions where you get to probe deeper and seek answers to current challenges. Each session aims to share successful and proven practices.

In addition we have two excellent interactive panel sessions covering Safety Environmental Management Systems (SEMS) and Staffing for the next decade and beyond. The panel members bring breadth of experience, depth of knowledge, and a range of perspectives.

The exhibition hall and networking sessions are always a highly valued part of this event. The number of exhibitors continues to grow as does the content and the quality of the displays. Make the most of this opportunity to explore the range of services, equipment, and technology. This is a great place to meet new contacts and catch up with friends.

I invite you to participate in this year's conference. I am sure you will find solutions, products, and services to bring greater success to your area of Deepwater Operations.

**See you in Galveston, Texas, November 6-8, 2012!**

Take care,

# SPONSORSHIP OPPORTUNITIES

Take advantage of a variety of sponsorship opportunities designed to increase your visibility at Deepwater Operations. Sold on a first-come, first-served basis, Deepwater Operations sponsorship packages ensure prominent exposure of your company's product or brand to a key audience of decision makers. Choose one of our exclusive packages or work with our team to create a package customized to fit your specific needs. With a Deepwater Operations sponsorship you get maximum branding, recognition and return on investment.

## ALL SPONSORS RECEIVE: \*

- Reduced space rate of \$31.50 per square foot
- Daily recognition via PA announcements on exhibition floor
- Company logo placed on "Sponsor's Page" in Show Guide
- Opportunity to include literature, provided by sponsor, in delegate bags
- Company Logo included on all on-site event signage
- Company Logo & Hyperlink placed on Deepwater Operations Event Website
- Company logo and sponsorship included on multi-sponsor slide before all sessions
- Complimentary Exhibit Hall Invitations to send clients
- Extensive event advertising in industry-leading magazines including Oil & Gas Journal and Offshore magazines
- Discount on Conference rates for your employees (Exhibitor Delegate Rate)

\*Excludes all golf sponsorships

## AVAILABLE SPONSORSHIP PACKAGES: (as of 7/5/12)

Wednesday Networking Reception  
Escalator Branding  
Thursday Lunch  
Registration Fast Track  
Eagle Golf Tournament (4 available)  
Birdie Golf Tournament (4 available)  
Beverage Golf Cart  
Hole Golf Tournament (6 available)

# CONFERENCE INFORMATION

The Deepwater Operations Conference and Exhibition is celebrating its 10th anniversary this year. The event will continue the tradition of excellence in exploring the challenges involved in deepwater production. The 2012 conference theme is "A Decade of Lessons Learned, Preparing for New Challenges." This conference connects operations staff, engineers and management personnel to innovative ideas, trends and technology in the industry.

Deepwater Operations allows the free and open exchange of ideas, proceedings will not be published and press is not allowed to attend the sessions. This format allows for the open and frank exchange of ideas, best practices and lessons learned that impact global deepwater development.

The advisory board has solicited presentations from industry leaders who address trends, issues and developments in deepwater production. attendees can expect to learn and discuss the real-life issues and solutions relevant to deepwater operations today.

## THE CONFERENCE WILL ADDRESS THE FOLLOWING TECHNICAL AREAS:

- Start-ups
- Asset Management
- Operational Solutions
- Integrity Management
- Staffing
- Regulatory
- Emergency Response
- Implementation, Assurance and Future Development of SEMS

## REGISTER NOW AND SAVE!

Register by September 28, 2012 and save \$100 on your full conference registration!

Full conference registration includes:

- Access to all Conference Sessions
- Access to Exhibition Hall, including any scheduled receptions
- Coffee Breaks in Exhibition Hall
- Continental breakfast on Wednesday and Thursday
- Delegate lunch on Wednesday and Thursday (ticketed)

## 4 WAYS TO REGISTER:

#### WELCOME & INTRODUCTION

Eldon Ball, Offshore

Eldon Ball is the Senior Editor, Technology & Economics, for Offshore magazine and Conferences Director for PennWell's US Offshore Group. He previously served as Editor-in-Chief and Associate Publisher of Offshore, responsible for all print, online, and conference content for the PennWell Offshore Group. Prior to joining PennWell in 2002, he held a number of writing, editing, and communications positions with Enron, Lyondell Chemical, Pennzoil, Texas Eastern Corp., and BMC Software. He previously has served as Editor and Associate Publisher of Petroleum Management magazine, Editor of Ocean Oil Weekly Report, Product Marketing Manager for BMC Software, and Media Relations Manager for Texas Eastern Corp. He has a Bachelor of Journalism degree from the University of Texas at Austin.

#### CHAIRMAN'S OPENING REMARKS

Jon Unwin, Shell

Jon currently holds the position of Safety Manager for Shell Upstream Americas and Global Manager of Operational Safety.

Jon's previous roles include Vice President, Safety, Environment, and Sustainable Development for Shell Deep Water; Operations Manager for the Ursa asset, a large production and drilling platform with sub-sea developments in the Gulf of Mexico; and Regional Maintenance and Integrity Manager for Shell E&P Americas.

Jon graduated with honors in Marine Engineering from the University of Newcastle upon Tyne, England. He began his career with Exxon in ship repair and maintenance and since joining Shell in 1990 Jon has worked in operations, maintenance, engineering, construction, commissioning, and HSE in the Netherlands, the UK, and the USA.

Jon is married and has two (grown) children and a grandson. He enjoys family time, flying, travelling, and cooking.

#### KEYNOTE PRESENTATION

Christina Sistrunk, Vice President – Producing Assets, Deep Water GoM  
Shell Energy Resources Company

Christina Sistrunk is a graduate of The Ohio State University with a B.S. in Chemical Engineering. She joined Shell in 1998 after working for the Amoco Production Company where she had worked in a variety of engineering and Operations Management roles all focused on Gulf of Mexico production and development. Since joining Shell, Christina has worked in the Deepwater Engineering projects organization, as Operations Manager, Operations Skill Pool Manager, HSSE Manager – Americas Region, and Gulf of Mexico East Asset Manager. Christina's last posting was in the Netherlands as the Asset Integrity Program Manager, which she began at the start of 2008. This role required leading a global effort to improve process safety across Shell's upstream business. Her current position is VP - Producing Assets, Deep Water-GOM.

### SESSION 1 – START-UPS/FIRST YEAR LEARNINGS

Chair: Gary Mitchell, Anadarko Petroleum Corporation  
Co-Chairs: Shawn Lurry, Apache Corporation  
Sergio Matos, Petrobras America Inc.

#### CASCADE AND CHINOOK START-UP

Cesar Palagi, Petrobras

Dr. Palagi will describe the development concept of Cascade and Chinook fields in ultra-deepwater GoM and the initial results of operations.

Cesar Palagi is the Walker Ridge Production Asset Manager for Petrobras, based in Houston, in charge of the development and operation of the Cascade and Chinook fields. He has worked for Petrobras for more than 32 years.

#### CAESAR TONGA SUBSEA TIEBACK LESSONS LEARNED

Justin Hayes, Anadarko Petroleum Corporation

Caesar Tonga marks the first installation of Steel Lazy Wave Risers in the Gulf of Mexico. A tieback to Anadarko operated Constitution spar and producing over 45,000 bopd at high pressure, Caesar Tonga offers many lessons in major brown field development, startup and production.

Justin Hayes is a Senior Production Engineer in the Deepwater Gulf of Mexico Operations group at Anadarko Petroleum Corporation. A graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, Justin has worked the Boomvang and Constitution deep water assets (both are Anadarko operated Spars).

#### TAHITI 2 START UP/FIRST YEAR LEARNING

Brian Fabre, Chevron

Summary of my presentation is the lesson learned and sharing of the successful Tahiti 2 water injection project start-up with first year learning.

Brian Fabre Chevron - DWEP MCP Operations Big Foot OIM - June 2012 - present Lead Ops Rep - Tahiti 2 Sept.2009 - May 2012 Lead Ops Rep / SU Coordinator / Operation Supervisor - Tahiti May 2003 - August 2009 Production Team Leader - Genesis Jan 1997 - April 2003 Chevron Employee - 27 years(15 years Deepwater)

## WEDNESDAY, NOVEMBER 7, 2012

**11:15 A.M. – 12:45 P.M.**

LUNCH

Sponsored by: 

**12:45 – 2:15 P.M.**

### SESSION 2 – ASSET MANAGEMENT/OPERATIONAL SOLUTIONS/INTEGRITY

Chair: Craig Sherer, Chevron Global

Co-Chairs: Donny Burleigh, FMC Technologies

Jeremy Burford, BHP Billiton

#### TODAY'S PIPELINE PIGGING: HOW SMART IS "SMART"?

Michael McGee, Quest IntegrityGroup

Pipeline integrity management is a difficult thing. Historically, smart pigging technologies have been able to provide operators some degree of benchmarking, identification and understanding of damage mechanisms affecting subsea pipelines. Today's operators, however, face increasing difficulties as development and production fields trend towards deeper, more complex operations and corresponding challenges arise. Traditional methods of smart pigging are not always sufficient in such environments. In this paper, we will explore the evolution of pipeline pigging, what historically has been provided to operators, how modern smart pigs address difficult environments, and examine benefits beyond conventional capabilities.

Michael McGee is a technical adviser for Quest Integrity Group's Pipeline Division. Before joining Quest, McGee spent six years with Rosen Inspection Technologies working his way from technician to lead area manager-technical services for North America. He also lectures for the Petroleum Extension Service of The University of Texas.

#### FIRST YEAR LEARNINGS: ASSET MANAGEMENT, FLOW ASSURANCE

Suyu Ye, Statoil

In Statoil, flow assurance is always one of the focus points in the field development phase, but some parameters may change during the production phase bringing new flow assurance challenges. We will present Statoil's general flow assurance philosophy, and one field case with unforeseen flow assurance challenge and the remediation solution.

Dr. Suyu Ye is currently principal engineer transport technology and flow assurance in the facilities group of field development department of Statoil USA offshore. He has 20 year experiences include 8 years in research at Pau University in France and 12 years in O&G industry in USA.

#### ASSET INTEGRITY PLANNING ON PROJECTS

Joey Boudreaux, Chevron

Asset Integrity Management Planning for major capital projects operating in the GOM. Will cover the process steps used to define requirements, challenges and lessons applied.

Joey Boudreaux Chevron Deepwater Exploration & Projects - Houston, TX Lead Operations Representative 27 years experience in Producing Operations both domestic and international. 15 years working new projects focusing on Operations Assurance

#### ALTERNATE: PROJECT OPERATIONS PLANNING

George Conner, Chevron

This presentation will cover an approach to Operations involvement in the design and execution of a project to ensure a seamless transition to Business Unit producing operations.

George Conner's upstream experience spans 33 years with Texaco and Chevron. His background includes Project Engineering, Rotating Equipment Supervision, Senior Reliability Engineer and an Advisor to Base Business Operations and Major Capital Projects.

**2:15 – 3:00 P.M.**

COFFEE BREAK

Sponsored by: 

# PRELIMINARY CONFERENCE PROGRAM

## WEDNESDAY, NOVEMBER 7, 2012

3:00 – 4:30 P.M.

### SESSION 3 – PANEL DISCUSSION – STAFFING FOR THE NEXT DECADE & BEYOND

Co-moderators: John Glithero, Wood Group PSN  
Paul Danos, Danos

#### CHALLENGES IN STAFFING FOR NEW TECHNOLOGIES

Volker Rathmann, Collarini Energy Staffing

The offshore industry is facing an unprecedented "perfect storm" with the challenge of an aging workforce, increasing demand for oil production, supreme technical challenges, and a permanently changing regulatory environment. Individuals and organizations who want to succeed in this climate will have to do a number of novel things – and do them right the first time! Solutions will have to include new approaches to recruiting, retention, mentoring, the development of advanced science expertise beyond current practices, and the establishment of processes to achieve the developments of future talent needed. Professionals looking for solid careers in our industry will understand these trends and will be able to utilize them as they are making career path decisions.

Volker Rathmann is President of Collarini Energy Staffing with over 20 years of experience in a variety of leading roles in the offshore industry. He has over 10 years experience in heading a professional staffing and consulting practice servicing EPC and service companies, engineering firms, and operators in the oil and gas industry.

#### PANELISTS:

Dr. Monty Sullivan is Chancellor of Delgado Community College, the largest community college in the Louisiana Community and Technical College System. The LCTCS has provided training statewide following the Deepwater Horizon oil spill. Dr. Sullivan has been instrumental in systems efforts to address regulatory changes that are impacting educational requirements.

Aaron Davis is a production superintendent with Anadarko Petroleum Company and is in his 40th year with the company. He has been in Deep water since 1995 when he managed the Startup of Neptune, the World's first floating production spar. Most recently, he was the superintendent at startup for Anadarko's Independence Hub facility. Over the last few years, Aaron's responsibilities have also included the recruiting, hiring and development of Anadarko's future offshore operating personnel. He brings a wealth of knowledge and creative ideas to this area.

Darcy Strain is with Chevron Upstream & Gas and is a Training & Competency Advisor. His experience covers 25 years in upstream operations including roles as Operations Supervisor, Training & Development Coordinator, Competency Development Coordinator and Training & Competency Advisor.

Kelly Lambert has been with Shell over 22 years working in Gulf of Mexico Exploration, Development and Operations. She is currently the Operations Readiness and Skillpool Manager, Upstream Americas-Deepwater. She's responsible for forecasting operations resource needs, recruiting, onboarding, setting direction for training and competence assurance, and leadership development programs.

4:30 – 6:00 PM

NETWORKING RECEPTION

## THURSDAY, NOVEMBER 8, 2012

### 7:00 – 8:00 A.M.

NETWORKING BREAKFAST

Sponsored by: **MURPHY**  
EXPLORATION & PRODUCTION CO.

### 8:00 – 9:30 A.M.

#### SESSION 4 – REGULATORY

Chair: Mike Lynch, Granherne  
Co-Chairs: David Adkins, Williams  
Rusty Sawyer, Murphy E&P USA

#### COAST GUARD REGULATORY UPDATE

Mark McManus, U.S. Coast Guard

Review of current Coast Guard regulatory initiatives effecting Outer Continental Shelf vessel and installation operators.

CDR Mark McManus is the Chief of Prevention at U.S. Coast Guard Marine Safety Unit Morgan City. Marine Safety Unit Morgan City manages the largest offshore regulatory compliance area of responsibility in the Gulf of Mexico.

Bureau of Safety and Environmental Enforcement (BSEE) – INVITED

OOO Update

Allen Verret, Offshore Operators Committee – INVITED

#### ALTERNATE: COS OVERVIEW

Charlie Williams, Shell

### 9:30 – 10:00 A.M.

COFFEE BREAK

Sponsored by: 

### 10:00 – 11:30 A.M.

#### SESSION 5 – EMERGENCY RESPONSE

Chair: Mark DeRouen Jr., Apache Corporation  
Co-Chairs: Wayland Christensen, Chevron  
Kevin Berry, ConocoPhillips

#### STATE OF THE ART FOR SEARCH AND RESCUE

Randy Chaumont, Anadarko

This presentation will cover the past and present of medevac and search and rescue coverage in the Gulf of Mexico.

Randy Chaumont is a Logistics Supervisor at Anadarko Petroleum Corporation. He worked logistics the past 46 years in the oil and gas industry, has survived 5 buy outs while working for Placid Oil, Torch Operating, Norcen Explorer, UPR, and currently with Anadarko.

#### LESSONS LEARNED

Trey Phillips, J. Connor Consulting

Regulatory Lessons Learned, from drills, plans and training. A look at both industry exercises and BSEE unannounced exercises and how the landscape has changed in the deepwater community.

Trey Phillips has worked with J. Connor Consulting since 1995 and holds the position of Drills Manager. He has seen the drills landscape change from year to year and is working currently with a majority of the Helix and MWCC members to implement exercise programs, specifically deepwater containment responses.

#### UNITED STATES COAST GUARD – INVITED

#### ALTERNATE: CHALLENGES AND LESSONS LEARNED FROM MAJOR OIL SPILL RESPONSE EXERCISES

Philip Smith, Shell Exploration & Production Company

This presentation will cover best practices and challenges from recent major Oil Spill Response Exercises using the Incident Command System.

Phil Smith works for Shell Exploration and Production Company and currently serves as the primary Incident Commander for Shell's Upstream operations in the Americas. Phil has been involved with emergency response for the last 12 years and has recently led several large scale deepwater oil spill exercises.

# PRELIMINARY CONFERENCE PROGRAM

## THURSDAY, NOVEMBER 8, 2012

**11:30 – 1:00 P.M.**

LUNCH

**1:00 – 2:30 P.M.**

### SESSION 6 – SEMS PANEL

Co-moderators: Shawn Lurry, Apache Corporation  
Jerome Meaux, Plains E&P  
Hakon Haugland, Statoil

#### PANELISTS:

Eileen Estrada is an HSE Analyst at BHP Billiton and has a degree in Marine Safety and Environmental Protection from Massachusetts Maritime Academy and a masters degree in Emergency and Disaster Management from American Public University System.

Daniel "Dan" Lemanczyk is employed by Wood Group PSN as the SEMS / Compliance Manager with Forty years of proven managerial experience in Safety, Health, Security, Personnel Development, Total Quality Management, Oil & Gas Production Operations, Manufacturing, Construction, Marine Fire Prevention and Control, Hazardous Material Handling, Transportation and Governmental Regulatory Affairs.

Virginia Park has worked for more than 25 years on HSE aspects of the Oil and Gas Industry. Virginia has worked designing and implementing simple and successful management systems since 1995 in Norway and USA

Jim McGrath is President of PPI Quality & Asset Management LLC, which delivers SEMS data management software, inventory and real-time asset tracking, and mechanical integrity and quality assurance products and services. McGrath directs the company in developing software, services, and technology for deepwater operator needs for business efficiency and compliance.

**2:30 – 2:45 P.M.**

## TOP 3 REASONS TO UPGRADE TO A GOLD OR PLATINUM LISTING:

1. Advertise NEW products and solutions!
2. Showcase MORE of your products and services!
3. STAND OUT from your competition!

The image displays three screenshots of the Deepwater Operations website, each showing a different listing package. The Basic Package is represented by a blue box, the Gold Package by a yellow box, and the Platinum Package by a grey box. The Platinum Package box also states "PLATINUM ONLY \$720.00 more". The screenshots show the website's layout, including the header, navigation, and content areas, with the Gold and Platinum packages offering more extensive features and visibility.

## DirectEventConnect™

<http://community.deepwateroperations.com>

**Want to make Deepwater Operations Conference the most valuable event of the year?  
Start planning with My Event Planner today!**

### HOW IT WORKS:

My Event Planner is a FREE exhibition organizer and scheduler that let's you view, compare and bookmark exhibiting companies, products and services that interest you while you search the DirectEventConnect exhibitor directory. You can build, refine and add to your planner right from your desktop at <http://community.deepwateroperations.com>. After you bookmark exhibitors and products, they are automatically saved as favorites and are highlighted on your printable floor plan for you to follow on site.

### BENEFITS OF DIRECTEVENTCONNECT BEFORE ATTENDING THE EVENT:

- Preview who and what will be at the event
- Maximize your time at the event and set appointments to meet face-to-face with exhibitors
- Network with other registered users and exhibitors

### BENEFITS OF DIRECTEVENTCONNECT WHILE AT THE EVENT:

- Use your personalized floor plan to quickly direct you through the exhibition floor
- Search for more companies, products and services onsite at the DirectEventConnect product locator kiosks throughout the event
- Reprint your customized floor plan from the onsite product locators or anywhere Internet is provided, if you need an updated copy

### BENEFITS OF DIRECTEVENTCONNECT AFTER THE EVENT:

- Follow-up with those exhibitors and fellow attendees that you met at the event
- Connect with exhibitors and fellow attendees that you weren't able to meet with onsite

**Build your profile today! | Visit <http://community.deepwateroperations.com>**

## SEASON PASS

# INTRODUCING..... THE SEASON PASS

Presented by **Offshore** magazine

Take advantage of the upcoming **Offshore** events and **SAVE BIG!**

**THREE GREAT EVENTS, ONE LOW PRICE!** ATTEND ALL THREE OF THE FOLLOWING EVENTS FOR THE LOW PRICE OF **\$1,500!**

*(A value of \$2,765)*

**WANT TO ATTEND JUST TWO OF THE BELOW EVENTS? PAY JUST \$1,050!**

*(Value ranging from \$1,770 to \$1,990)*

### NOVEMBER 6-8, 2012

Moody Gardens  
Hotel & Convention Center  
Galveston, Texas USA  
[www.deepwateroperations.com](http://www.deepwateroperations.com)

#### Deepwater Operations Conference & Exhibition

kicks off the Offshore season. The event celebrates its 10th anniversary this year by continuing the tradition of excellence in addressing operational challenges involved in developing deepwater resources.

### FEBRUARY 5-7, 2013

Moody Gardens  
Hotel & Convention Center  
Galveston, Texas USA  
[www.topsidesevent.com](http://www.topsidesevent.com)

#### Topsides, Platforms & Hulls Conference & Exhibition

is the offshore industry's only event dedicated to the topsides, platforms and hulls for both deep and shallow water. A comprehensive technical program presented concurrently with an exhibition, Topsides, Platforms & Hulls Conference & Exhibition covers the design, engineering, construction, transportation, installation, and modification of topside structures, platforms and hulls.

### MARCH 5-7, 2013

Henry B. Gonzalez  
Convention Center  
San Antonio, Texas USA  
[www.subseatiebackforum.com](http://www.subseatiebackforum.com)

#### Subsea Tieback Forum & Exhibition

has become the premier event for one of the fastest growing sectors of the oil and gas industry. Over two days of sessions, speakers share knowledge and collective experiences crucial to improving the quality, safety, and economics of the subsea tieback industry. The Subsea Tieback exhibit hall floor is the industry's leading platform for information exchange, networking opportunities and new business development.
